Built the British Way

- Quality You Can Count On: Every frame is precision-made with care, using only trusted materials.
- Heritage Look, Modern Spec: Traditional styles with A-rated energy efficiency and low maintenance.
- Fast, Reliable Turnarounds: We understand timelines—and we stick to them.
- Smart Technology Options – Upgrade your offer with integrated smart locks, sensors, and automated features for a more connected home.
- Colour & Foil Options – A full range of heritage and modern finishes to suit any property type.
- Arched & Shaped Frames – Manufactured in-house to your exact specifications.

MADE IN BRITAIN

Proudly Investing in Our Future

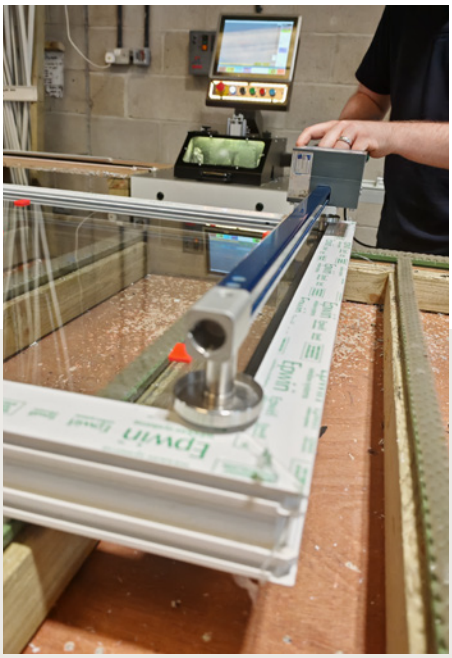
At Vintage UPVC Products Ltd, we believe that real growth is built on the strength of our people, the quality of our work, and the courage to invest even when times are tough.

Over the past few years, we've weathered some of the most challenging trading conditions our industry has seen — and rather than standing still, we've continued to push forward. We're proud to have significantly invested in state-of-the-art manufacturing machinery, helping us increase efficiency, consistency, and capacity while maintaining the exceptional standards our trade customers rely on.

But for us, it's not just about technology — it's about the people behind it. We've put just as much into developing our team as we have into upgrading our equipment. From skills training and process improvements to creating a working environment our staff can take pride in, our growth is built on shared success.

Operating across two manufacturing units — and soon to expand into a third — our South Wales base is a hub of progress, precision, and pride. As we grow, we stay true to our roots: supplying the trade with quality Deceuninck 2800 & Spectus Vertical Slider systems , backed by a team who genuinely care about the work they do.

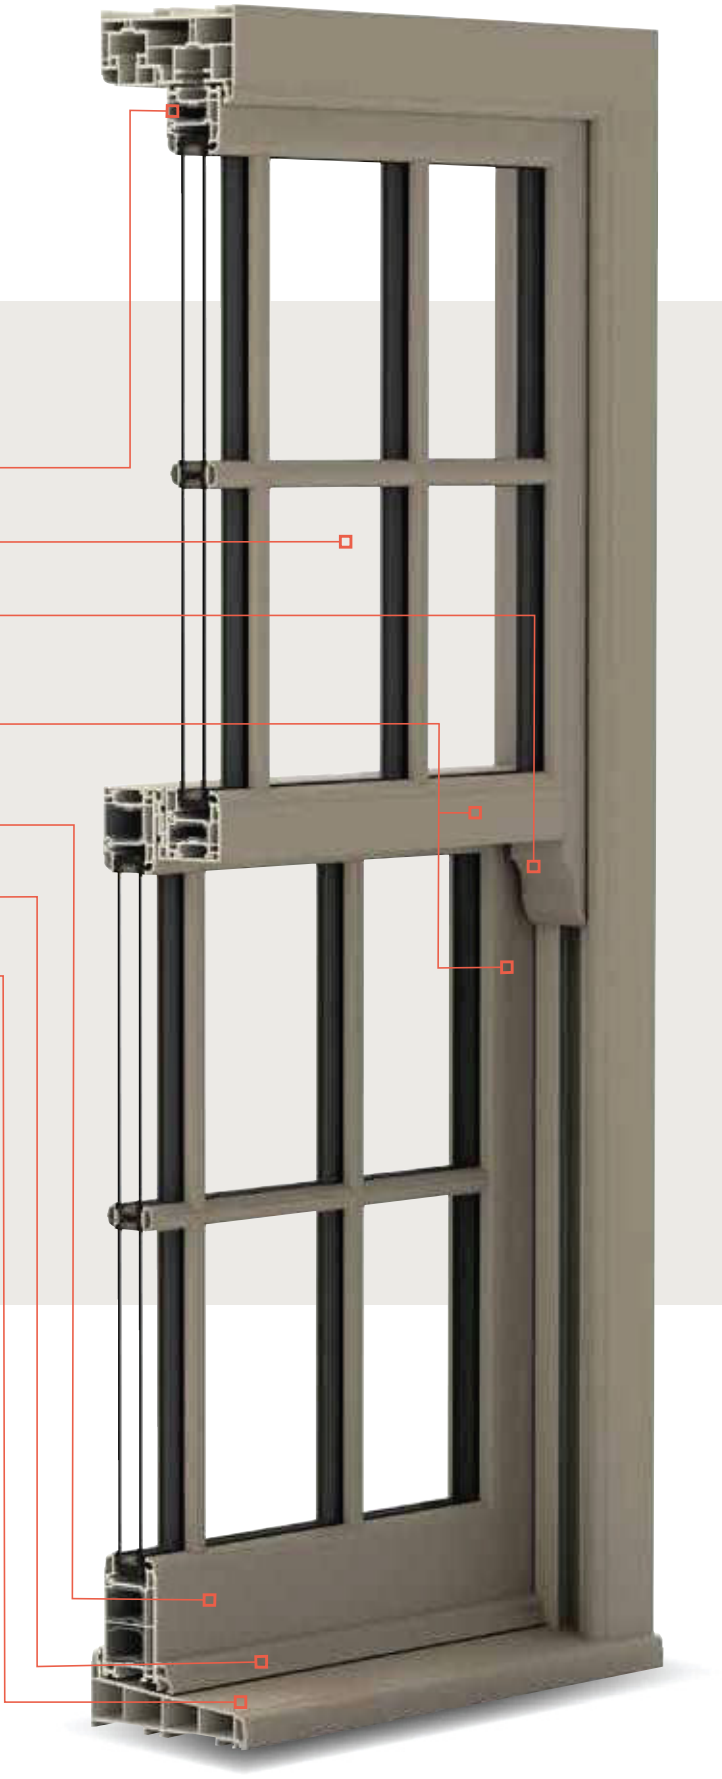
We're proud of how far we've come — and even more excited about where we're going.



Vintage Vertical Slider Range

Product **features**

1. Thermal inserts for improved WER & U-values
2. 24mm double glazing as standard
3. Run-through or screw-on horn options
4. Two sash profile widths to give equal vertical sightlines
5. Mechnically jointed deep bottom rail option
6. Weatherbar
7. 150 & 210mm cill options



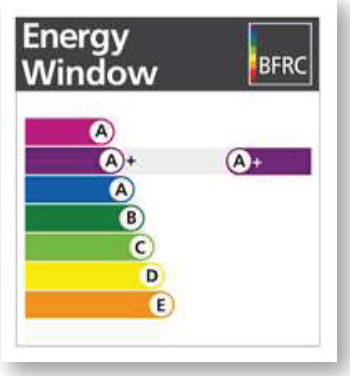
Add Authentic Character with Georgian Bars / Astrical Bars

Enhance the period appeal of our Vertical Sliding windows with optional Georgian bars. Perfect for heritage homes, conservation projects, or any homeowner seeking that classic sash window aesthetic, Georgian bars deliver a truly traditional look—without compromising on modern performance.

Full Range of FAB & FIX Furniture Available

Impressive insulation and protection.

Despite its traditional appearance, the Vertical Sliding Sash Window is a very modern window system. 24mm double glazing comes as standard and the multi-chambered frames and sashes can be enhanced with the addition of purpose-made recycled thermal inserts. There are pile seals on the sash and outer frame to prevent draughts and the optional weatherbar brings additional protection against rainwater. It all adds up to a window that offers U-values as low as 1.3 W/m^{2}K and a WER up to Band A+.



The **Colour Collection**

Colour is an essential component of an authentic installation.

The Vertical Sliding Sash Window System range includes a wealth of coloured and woodgrain options, including heritage shades and dual colour options.

Our most popular Vertical Sliding Sash System colours are available direct from stock and our Made to Order service reduces lead times for shades that aren't in stock too. What's more, the minimum order quantity is a single length.

For all our colour options, rigorous manufacturing processes mean outstanding quality and durability are guaranteed.

It's an offering that opens up the world of colour and means you can create projects that meet the most demanding of aesthetic requirements.

The future is about

HOME ENERGY EFFICIENCY

Home Safety: Protect Your Property with Secure Windows and Doors

The foundation of security starts with the window or door profile. Deceuninck offers the ultimate solution, with windows and doors manufactured to the stringent standards of Secured by Design.

Experience complete peace of mind and protect your property today!

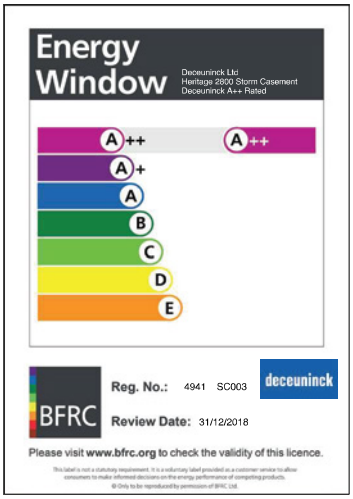
It's essential to have a window and door solution that seals in the warmth of your home, saving you money on utility bills and reducing your carbon footprint.

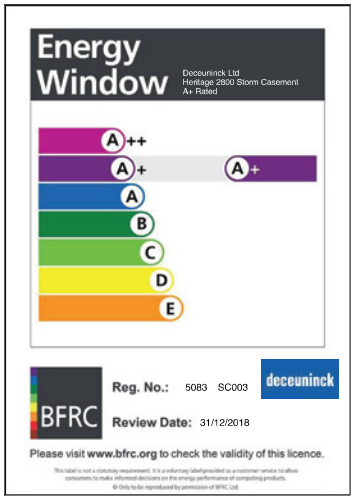
Unleash the Power of Energy Efficiency with Windows and Doors: Navigating the Rainbow of Energy Ratings.

We've all seen the rainbow 'energy label' on our household appliances, but did you know it applies to windows and doors too? The best in class for energy efficiency is an A+ rating or higher, and with the Thermal Rating Register or BFRC, that equates to A* or A+. So, when choosing your windows, look for the energy label with A*, A+, or up to A++.

Want to see how much you could save?

Visit **www.deceuninck.co.uk** for a quick and easy **online energy calculator**. Our Heritage 2800 double-glazed windows boast up to an impressive A++ energy rating, while our triple-glazed options provide the ultimate in energy efficiency and comfort.





Triple Track & Slider 24 Patios

TT24 and Slider24

FOR CONTEMPORARY LIVING

Embrace the spirit of contemporary living with our TT24 & Slider24 doors - The Perfect Doors for Modern Lifestyles

Super Efficient

The TT24 and Slider24 offer excellent insulation qualities which effectively reduce energy and heating costs. They are extremely low maintenance and provide a cost-effective solution to any home improvement project.

Comfortable living

The TT24 and Slider24 provide a host of advantages to the quality of life. The patio door acts as strong and durable insulators against the harsh elements

Sound-Proof

Glazing options to maximise energy efficiency and/or sound proofing.

Safe and Secure

The TT24 and Slider24 provide a secure and protective solution for any home with multi-point locking systems inbuilt to give you peace of mind. The Slider24 is further enhanced with a new sash interlock.

The perfect blend of

ENERGY EFFICIENCY & SECURITY

Our sliding Doors are the perfect blend between energy efficiency, security, and aesthetics.

Designed to meet the evolving needs of modern homeowners, these sliding doors are a testament to Deceuninck's commitment to creating products that prioritise both our planet's well-being and our own peace of mind.

At the heart of the TT24 and Slider24 lies its exceptional energy efficiency.

Crafted with precision and using state-of-the-art technology, this door is built to minimise heat loss and maximise insulation. The multi-chambered profile, combined with high-performance glazing options, creates an effective thermal barrier, reducing energy consumption and lowering heating and cooling costs.

With its impressive U-values, our patio doors ensure that your home remains comfortable throughout the year while reducing your carbon footprint.

Beyond energy efficiency, security is a paramount concern for any homeowner, these sliding doors won't disappoint. Equipped with robust locking mechanisms and reinforced frames, these doors offer unparalleled protection against intruders. The advanced locking systems provide peace of mind, allowing you to relax and enjoy the beauty of your surroundings without compromising on safety.

Triple Track. Triple Advantage

Space, Style & Performance

With slimline profiles and expansive glass panels, the TT24 and Slider24 allow an abundance of natural light to flood your living space, creating an atmosphere of openness and tranquility.

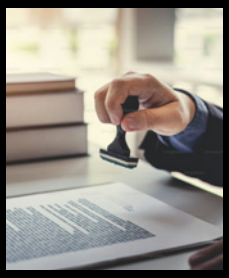
Whether you have a stunning garden, a picturesque view, or simply want to create a brighter interior, our sliding patio doors ensure that you won't miss a single moment of the beauty that surrounds you.

Weather Resistant

Best in class weather performance, air and water tightness.

Extremely Durable

Crafted from high-quality PVC, our sliding patio doors boast exceptional durability, capable of withstanding even the harshest weather conditions.



10 Year Guarantee

For your complete peace of mind, we provide a manufacturer's guarantee of a minimum of 10 years on our TT24 and Slider24 patio doors.

Colour Match

Each of our Heritage colours has its own matching ancillaries, trims and accessories for your TT24 and Slider24 and matching windows from our Heritage range.

30+ Colourways

We take pride in offering a wide selection of colour options for our products, with over 30 different colourways available from stock

Optional Security upgrades

For customers looking to enhance security, we offer a range of upgrade options to meet higher protection standards. This includes optional 3-star high-security cylinders, offering maximum resistance against picking, drilling, and snapping. We also provide upgrades to meet Document Q compliance, ideal for new-build projects and ensuring alignment with current Building Regulations. These enhancements are perfect for added peace of mind without compromising on style.

SFS 2D Door Hinge

Why not upgrade to the market's best door hinge…

- Secured by Design registered - robust, durable & secure.
- Excellent carrying capacity, 100kg with two hinges - easily capable of supporting triple glazing.
- Easy directional adjustment including downwards adjustment to optimise seal on low thresholds.
- Excellent long term operational reliability tested to 200,000 cycles for a true 'fit & forget' installation.
- Maintenance free due to self-lubricating bushes; ensuring a lasting and smooth movement over time.
- Aesthetically pleasing to enhance the appearance of the finished doorset.
- Wide range of finishes- to perfectly suit coloured profiles.
- 10 year mechanical guarantee.

Optional Upgrade to PAS 24 & Document Q Specification

All our windows and doors can be optionally upgraded to meet PAS 24 and Document Q standards, ensuring enhanced security and compliance with the latest building regulations for new-build properties.

Why upgrade to PAS 24 / Doc Q?

Increased Security: Enhanced hardware and design features provide resistance against forced entry.

Regulation Compliance: Required for dwellings under Approved Document Q of the Building Regulations (England).

Peace of Mind: Ideal for developers and installers working on projects where security and certification are key.

Whether you're working on a new-build project or simply want added assurance, our PAS 24 / Doc Q compliant windows deliver robust protection without compromising on style or performance.

Talk to us about including this upgrade in your next order.

We're committed to being part of the solution to climate change

We have a big opportunity to make UK homes warmer.

The windows and doors that we make, and you fit, can deliver big carbon savings. They also deliver big opportunities for installers.

Sustainability goes hand-in-hand with the opportunity to win more business.

Join us on the journey.

- PVC-U is 100% recyclable and has an A+ Building Research Establishment Green Guide Rating
- PVC-U windows and doors are low maintenance and ultra-energy efficient with a reference service life of 30 to 35 years
- The material we use in each product we make can be recycled up to 10 times without any impact on performance
- It means the PVC-U that we use in today's products could still be in use in more than 300 years' time
- Recycling PVC-U delivers a big reduction in CO2 emissions. For every tonne of recycled PVC-U that we use in our products, we save between two and three tonnes of CO2e emissions.
