74 Technical Guide

We are very proud of our door's credentials and its ability to meet the most demanding technical requirements.

With two decades of experience and a dedication to excellence, we have earned the trust of installers and homeowners across the UK.

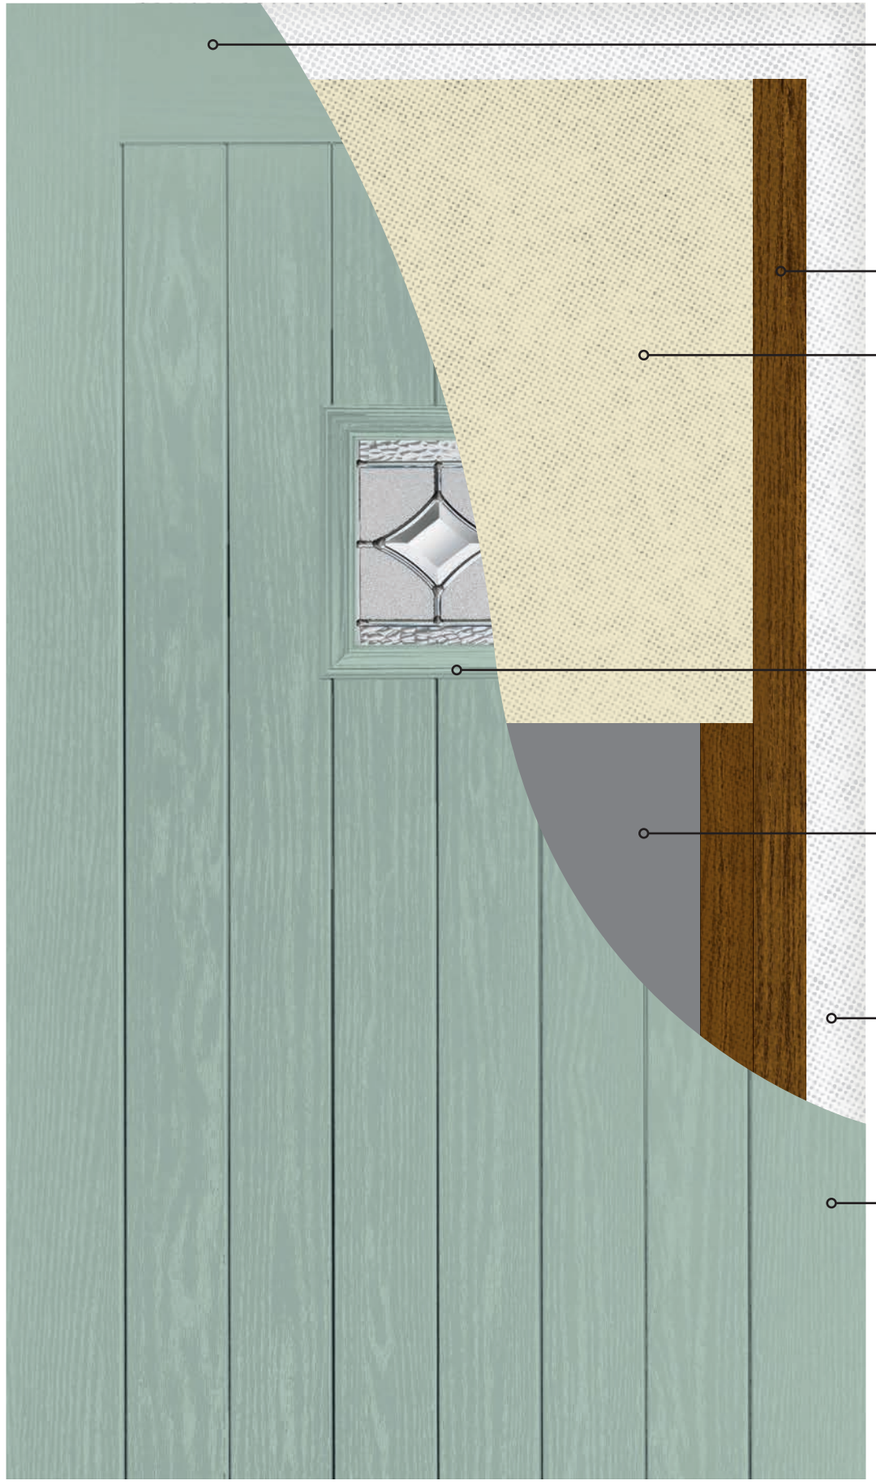

Our doors have been designed to keep your home safe and snug, reflecting our commitment to quality craftsmanship and your peace of mind.

Everything about a Distinction GRP composite door is designed to be easy to maintain, to prolong the life of the surface finish and protect your warranty, ensure sure door remains free of debris and pollution by simply using warm water and a soft, lint-free cloth.

See page 74 for more information.

distinctiondoors.co.uk/why-distinction

Quality you expect

We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Distinction door its prestigious authentic and premium aesthetic.

Engineered wood

For improved stability.

Foam filled core

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum by keeping warmth in and draughts out. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Decorative glass

Triple glazed and laminated as standard 24mm glass units for enhanced security and peace of mind.

Reinforced core

The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure and has earned our door its reputable 'Secured by Design' status.

Water-resistant composites

Water-resistant polymer composite rails help keep water absorption at bay, which helps prevent a bowed door; often associated with timber core alternatives.

Superb sound insulation

With a weighted noise reduction of 31 decibels, you can be sure that your new door will keep outside noise to a minimum, helping to make your home the haven you want it to be.

safe and snug

The most energy efficient door on the market

There are many ways to improve the energy efficiency of your home, actions which can reduce energy bills and create a warm and comfortable home. Amongst the most common methods are adding wall and loft insulation and draught-proofing.

But did you know that low performing, ill-fitting doors and windows can also cause heat loss and subsequently impact energy usage?

That's why we have developed the most thermally efficient entrance door on the market.

When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Investing in a new high-performance Distinction door will boost insulation levels and reduce draughts and cold spots, making your home extra warm, enabling you to turn the thermostat down a degree or two!

Today, one in four entrance doors installed in the UK is a Distinction door. We are the UK's leading composite door manufacturer with more than four million doors installed across the country.

* Based on indicative calculations of the door core.

Guarding what matters most

We believe that everyone should feel safe and secure in their home. That is why our products* are Secured by Design (SBD) accredited, and perform to all current composite door regulatory requirements.

SBD is a widely respected and long-established official police security initiative operated by the UK Police Service.

It provides a recognised standard for all security products which can deter and reduce crime, and help people live more safely.

Our SBD accredited products are available through SBD approved door fabricators only. They have been rigorously tested by the United Kingdom Accreditation Service (UKAS) an accredited independent, third-party certification body and meet the security requirements of the SBD Police Preferred Specification.

For more information, please visit: www.distinctiondoors.co.uk/secured-by-design.

* Please note, this does not include Stable doors.

Who lives here?

I live with my husband James and our cuddly Cavapoo, Barney. It is a small household, but it feels full of warmth and personality with the three of us.

Visit Ellies instagram here.

What drew you to this property?

"It was a small bungalow that was so old it was almost uninhabitable, but we could see past that. We knew that with some imagination and hard work, we could transform it into something really special and make it completely our own."

What is your favourite renovation in your home so far?

"Definitely the kitchen-diner space. Originally the tiny kitchen, conservatory and lounge were all separate and quite cramped. We knocked everything through to create one big open space. It feels bright, sociable and perfect for hosting."

What were your key considerations?

"Every decision had to make sense both practically and aesthetically. We spent a lot of time thinking about how we move through the house and how each design choice would support that."

How would you describe your house style?

"I always find this question tricky, but I would say it is a mix of mid-century and colourful elements, with traditional decor touches added in. I love blending styles rather than sticking to one strict look. For me, the most important thing is choosing decor that you genuinely love and that makes your home feel personal."

Why did you believe a Distinction Door would be the best fit for your home?

"When we first started looking for a new door, Distinction Doors stood out because they had so many good examples to browse through. I loved that they shared real customer photos online, which helped us picture what different styles would look like in real homes. We had a rough idea of what we wanted, but there were so many options to explore, from glass designs to colours and door styles."

What style of door, glass and colour did you go for and why?

"We chose the Esteem door with agate grey external, white internal, Kara brass glass and brass hardware. Agate grey felt like the perfect choice because it matched our windows beautifully, and brass is something I always gravitate towards. For the glass, we wanted something traditional that complemented the overall style of the house. We also knew we needed a composite door for practicality, but we still wanted it to look and feel traditional, and this design achieved that perfectly."

What have you enjoyed most about your door?

"What I love most is the first impression it gives. Before anyone even steps inside, they already get a sense of the care and attention we have put into our home. I also love how the sunlight shines through the glass in the afternoon and casts different colours onto the hallway wall. It is such a simple thing, but it adds a lovely touch."

Head to our social media for endless colour and style inspiration.

#mydistinctiondoor

Once your door is installed, please share your creation to help others with their door journey. Don't forget to tag **@distinction_doors.**

A colour for

every home

Our colour range has been refined to introduce clean, muted shades that feel calm and considered. The palette now leans into stylish, demure tones with a gentle gloss finish that brings subtle depth to every surface.

This curated selection celebrates low-saturation colour, mindful living and understated elegance. Shape your home's aesthetic with distinct interior and exterior shades that work beautifully together or stand confidently apart.

sparkling glass

EXCLUSIVE COLLECTION

Only found in a Distinction Door, our exclusive decorative glass is triple glazed and laminated as standard, complementing our superior quality doors. Our double-glazed options, Chatsworth and Wentworth also maintain the highest quality standards.

A new addition, Derwent features a striking bevelled centre panel with on-trend reeded glass detailing, framed by sparkling textured glass borders.

Windermere oozes elegance with an elongated central diamond design. The glass combines clear bevelled glass, textured privacy glass, and subtle grey baroque and diamond glass detail, it offers a sophisticated mix of light transmission and obscurity.

Both new families are finished with patina caming for a timeless appearance.

Slight bubbles, lines and surface imperfections, known as comet marks or seed tracks are all characteristics of glass and are not considered to be defects. The centre decorative pane may be made of textured glass of various thicknesses allowing some movement within the cames. This movement does not affect the aesthetics or performance of the glass.

GRANDEUR COLLECTION

YOU'LL **KNOW** WHEN YOU **HEAR** IT.

50% THICKER, SUPERIOR EFFICIENCY.

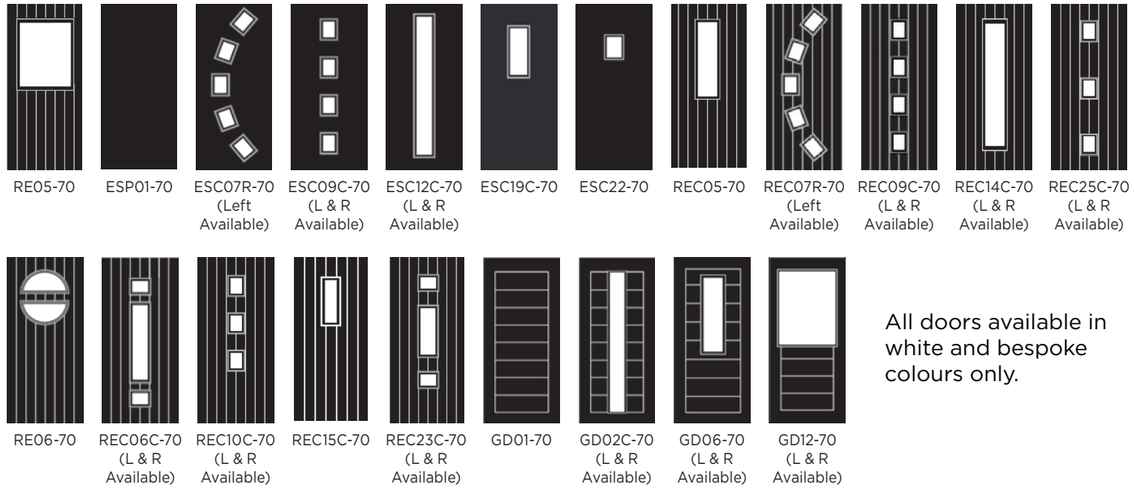

Luxury was at the heart of our vision when curating the Grandeur Collection.

It's the textured grooves of the woodgrain skin. It's the brushed-chrome hardware, with a deeply satisfying, dull thud as the multi-point locks engage and the double-rebated weather seals compress. Instantly silencing the outside chaos. Step inside and immediately feel enveloped by the hushed, ambient quiet of your home as the dense polyurethane core blocks out the street's abrasive sounds.

We believe you shouldn't have to sacrifice practicality for style. Our 70mm door is almost 50% thicker and as a result, offers **35% better thermal efficiency** than our standard 44mm door. ‡ This collection was built to keep heat in your home whilst still managing your energy usage effectively.

The doors in our Grandeur Collection add an extra level of security to your home, so you can rest easy knowing that your family remains as safe as it can possibly be.

All doors available in white and bespoke colours only.

Our 50mm triple-glazed, laminated glass is available in our much-loved Aspen, Edwardian, Kara Zinc, Kara Brass and Monza. Double-glazed Chatsworth and Wentworth styles are also available.

~ Based on indicative calculations of the door core. ‡ Door blank tested to Secure by Design standards. Subject to stock availability.

Contemporary

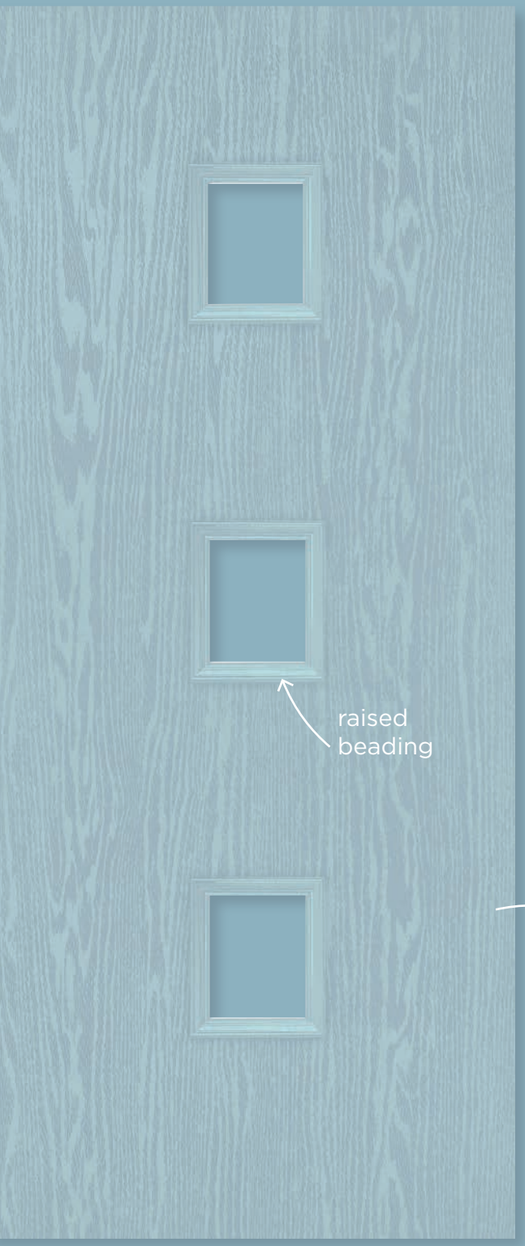

We know that style and security shouldn't have to be mutually exclusive. That's why we have great pleasure in introducing you to our contemporary door styles.

This range takes how you think a front door should look and flips it. Grooves, wood-grain effect and playful glass configurations create show-stopping statement door styles.

Dial up or down with one of our bespoke colours. Remember, you can choose a colour for both inside and out, and they don't need to match!

Complete the look with one of our bespoke glass designs.

Go on...be bold.

Technical Guide

Cleaning and Maintenance

Your Distinction GRP composite door has been designed to be easy to maintain.

To prolong the life of the surface finish and protect your warranty, ensure sure door remains free of debris and pollution by simply using warm water and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door as this will affect your warranty:

- Abrasive cleaners or scouring pads. Please note that some cleaners are abrasive.
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc.
- High pressure or steam cleaners.

Technical Figures

A Distinction GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero.

Decorative Glass

Features and benefits:

- Decorative triple glazing
- Obscure double glazing
- The decorative centre pane of the triple glazed unit is sealed within the unit therefore, it is protected from dust and weathering and easy to clean
- 7.2mm glass laminated as standard
- 50mm units available for 70mm doors
- Glass patterns may vary
- Slight bubbles, lines and surface imperfections are all characteristics of glass. They are not to be considered as defects as they add character to decorative glass.
